

**Are imports making it more difficult
for your company to compete?**

**If so, your company could be eligible for
federal grant funding to implement projects that can
enhance your company's competitiveness.**

**Companies can receive up to \$75,000 in
matching grant funding for projects of their choice.**

The Northwest Trade Adjustment Assistance Center (NWTAAAC) is a non-profit organization that administers the Trade Adjustment Assistance for Firms (TAAF) program for the **U.S. Department of Commerce Economic Development Administration**. TAAF helps American firms become more competitive when faced with import competition in their markets. Thousands of companies have benefited from this grant program since its inception.

ELIGIBILITY

If your company has seen sales and/or production decline, **and** been forced to lay off workers or reduce work hours, **and** you have lost some domestic sales to imports, we may be able to qualify your company for the funding. We will prepare the grant application (petition) and handle processing at **no cost to you**.

PROCESS

Upon petition approval, we will work with your company to develop a customized strategic plan, or Adjustment Proposal (AP). Sample projects in your AP could include:

- Website Design
- ISO Certification
- Software Customization
- New Product Development
- Lean Manufacturing
- Business Plan Development
- Logo Design
- Training
- Branding

NWTAAC works with companies in Alaska, Idaho, Montana, Oregon and Washington. Please contact us at nwtaac@nwtaac.org, (800) 667-8087 or www.nwtaac.org for more information.
